For Samsung 1640 Series

In order to improve the function of Unismart, data compatibility of Samsung 1640 series has been improved recently. The database of Samsung 307 series and Xerox 2308 series has also been updated (please refer to detailed information of table below). Users can log into the network system to pack and update the Uni-device.

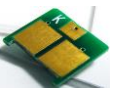

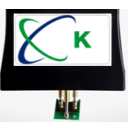

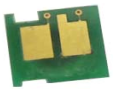

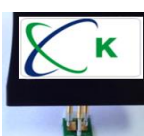

Note:

- Updated version: Bootload: 3.7; Firmware: V3.24. If the firmware version is lower than V3.22, users should pack and update for twice. Detailed steps please refer to the first section of 3.5.4 Setup mode of “User Manual (Uni-Device) V3.23”.
- Detailed information for updates:
